World Monuments Fund (WMF) is the leading independent organization devoted to safeguarding the world's most treasured places to enrich people's lives and build mutual understanding across cultures and communities.

The organization is headquartered in New York City with offices and affiliates in Cambodia, India, Peru, Portugal, Spain and the UK. Since 1965, our global team of experts has preserved the world's diverse cultural heritage using the highest international standards at more than 700 sites in 112 countries.

Partnering with local communities, funders, and governments, WMF draws on heritage to address some of today's most pressing challenges: Climate Change Adaptation, Balanced Tourism, Inclusive Heritage, and Post-Crisis recovery.

With a commitment to the people who bring places to life, WMF embraces the potential of the past to create a more resilient and inclusive society.

Design for the building and landscape that both honors Makiya's vision and improves the visitor experience. A community-driven approach that engages local experts and residents in the design process will result in the reestablishment of the museum as a living center for culture and education.
